IS IT SAFE?

THE BROADWAY HIGH SCHOOL BUILDING REFERRED TO.

A TIMELY TOPIC, THIS IS.

What Prominent Citizens Have to Say in Regard to the Structure's Partition Walls.

Is the Broadway High school building safe?

When the terrible fatality of last Friday, growing out of the falling of Ford's old theatre at Washington, D. C., is considered, it was certainly timely that the city council should, at its meeting last night, have appointed a special committee to inspect thoroughly and report as to the safe or unsafe condition of no less than three business houses of the city—two on Main street and the third one on Ohio street.

Nothing was said by the councilmen as to the condition of the High school building, but there are a number of representative business men who are of the opinion that this particular structure should have been included in the list of buildings to be inspected, and the reason therefor will be found in what follows in this article.

The Broadway structure was originally designed for a two-story building, and as such it was erected in 1867, at which time the school board building committee consisted of O. A. Crandall, Major Wm. Beck and Col. Richard Ritter.

A magnificent foundation was put in—one of the very best in the city, and capable of supporting a six or eight-story structure. When it came to building the walls, however, trouble was had in securing first-class brick—in fact, it was almost impossible to obtain them, and what were at hand had to be used, the cost price being \$7 per 1000.

The partition walls were nearly all made nine inches thick instead of thirteen, which they should have been, a majority of the board considering a nine inch wall perfectly safe. Messrs. Beck and Ritter stood out for thirteen inch walls, but were outvoted.

When the two stories were completed the board was presented with a mammoth petition, asking that a third story be added to the structure, and it required an all-night session to defeat the proposition, a majority of the board taking the ground that the partition walls were not sufficiently strong to stand the addition of another story.

In 1880, however, it was decided by an entire new board to increase the capacity of the building by adding the third story, and the contract was awarded to Wm. P. Cousley, who did the work in a perfectly satisfactory manner, making it as safe, possibly, as could have been done under the existing circumstances—that is, without having put in new and more substantial walls.

Col. Ritter was seen this morning and said that he was not prepared to say that the building was unsafe, but he did not hesitate to say the a thorough inspection should be had at once, and if the partition walls are found to be defective in the slightest particular, then they should be replaced, or proper steps taken to strengthen them in some other manner.

Major Beck entertained like views. There is no better foundation in the city, he says, but he is confident that the partition walls are not what they should be, and for this reason no time should be lost in having the building thoroughly inspected by experts.

Mr. Aug. T. Fleischmann, secretary of the school board, stated that the building was inspected in a thorough manner two years ago by Kansas City experts, and their report showed that it was perfectly safe, but at the same time, since the Washington fatality, he did not believe there was a member of the school board who would oppose a second thorough inspection, with a view to guarding against the loss of life or limb to pupils and teachers.

Mr. C. C. Van Wagner, another member of the board, said he had never heard the probable unsafe condition of the building discussed until to day, but for one he desired to go on record as favoring an inspection that would be thorough even to the most minute detail. It

is a matter in which the entire city is vitally interested, and one in which the expenditure of money should not be permitted to cut even a slight figure.

Mr. Will Van Wagner, who was present while his brother was talking, said: "I have two children attending the Broadway school, and have given the condition of the building a good deal of thought since the recent terrible accident in Washington. The school board do not want to run the risk of injury to a single pupil, I feel satisfied, and they will do well to bear in mind that an ounce of preventive is much better than a pound of cure."

The DEMOCRAT has no desire to create a scare, but at the same time it deems an inspection of the building imperative, to the end that there may be no duplicate of the Washington horror in Sedalia.

THE CITY FATHERS.

What They Did at the Adjourned Meeting Last Night.

At last night's adjourned meeting of the city council a petition for the extension of the water main on Kentucky street, and asking for two additional hydrants, was referred to the water works committee. John W. Bowman was granted permission to make changes in the curbing in front of his West Fifth street property, in order that his shade trees may be preserved.

A remonstrance against the paving of Prospect street was referred to Engineer Zoll.

An extension of time was refused O'Connor & Neil to file their bond in connection with the contract awarded them for paving East Third street. They were released and the entire matter was referred to the street and alley committee and City Attorney Cashman.

A resolution for the macadamizing of Main street, from Mill street to Grand avenue, was passed, the intention being to do the work in three sections.

Engineer Zoll was instructed to prepare a grade of Fourth street, from Grand to Thompson avenues. A remonstrance against the paving of Kentucky street did not contain a sufficient number of signatures to defeat the measure, and the property owners are asked to appear before the council and name the material they desire to be used.

The paving of the alley bounded by Third and Fourth and Washington and Lafayette streets was successfully remonstrated against.

The street commissioner was ordered to repair the sidewalk at Third and Kentucky streets, northwest corner.

A resolution was adopted providing for the curbing of East Third street, from Hancock to Engineer, with such material as is provided for by the general ordinance.

The Missouri Pacific company submitted a satisfactory proposition as to the construction of a sewer to drain the shops, and the city attorney was instructed to prepare an ordinance accordingly. Adjourned.

Bids for seating large Chautauqua tent. Carpenters only need apply. Call between 8:30 and 9:30 o'clock Wednesday morning.

J. S. LANGHORNE, Hoffman Building.

Had a Bluff Gun.

A young man of the city went over on the north side about 3 o'clock yesterday morning and began flourishing a pistol in the house of Minnie Fleming, colored. She ran for a policeman and at the same time the young man started at a Nancy Hanks gait for the business portion of the city. Officer Wade Wilfong overhauled him in a Main street saloon and after a "terrific struggle" disarmed him. The pistol was found to be of a very ancient pattern and was minus the cylinder. No arrest was made.

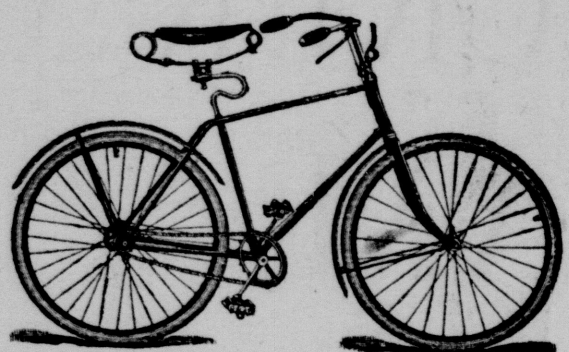

A Postmaster Appointed.

The postoffice at Tipton was yesterday made a presidential office, and S. W. Hurst was named as postmaster, vice J. H. Simpson.

Many Coming to Sedalia.

There are a great many people that come to Sedalia every week that are looking for city property, either to buy or rent. Also, farming lands in this locality. The firm of Morris & West, 214 Ohio street, would be pleased to have any or all such parties to call on them and look over their large list of city and farm property, for sale, rent or exchange. Call on them if you want anything in the real estate line. They guarantee satisfaction and straight dealing.

EMBALMED HIS WIFE

STRANGE STORY OF A MICHIGAN HUSBAND.

Erected a Vault and Passes His Sundays in Company With the Dead.

A rather goulsh story was related to a DEMOCRAT reporter recently by Mr. D. K. Olmsted, a traveling salesman for the Durfee Embalming Fluid Co., of Grand Rapids, Mich. Mr. Olmsted is an embalmer, of many years' experience, and during his career has met with many strange and unusual incidents.

"By the closest study," said he, "we have not yet been able to reach the degree of perfection in embalming that was practiced by the Egyptians. Countless books have been written upon the subject, telling how it was done, but no one has yet been able to name the ingredients which were used to preserve the bodies. The most successful method at present is to inject fluid into the arteries and cavities, and while this preserves the body from decay, yet it will not prevent its drying up and shrinking away. The skin becomes colored to a leathery brown. One of the most successful cases I ever had was in 1870. I embalmed a lady at Wet Prairie, Michigan. Her husband was quite wealthy and very eccentric. He was anxious that the body should be well preserved. I recently saw the body, and beyond the discoloration and the fact that the eyes were gone, it looked as natural as ever. The husband has erected a handsome vault in which the body is kept. He has never married and is devoted to the memory of his wife. The vault is elegantly furnished and has in it a grate, library, chairs, couches, etc., and the husband passes his Sundays with all that is mortal of his wife. He says that while of

course his wife does not look as she did in life, yet he is consoled by the fact that he knows it is she. The case is one of the strangest I have ever come across."

PRISONERS AT WORK.

Another Bar in the Jail Saved Partially in Two.

Another attempt looking to escape was made by the prisoners confined in the Pettis county jail either yesterday afternoon or last night, as Sheriff Porter discovered when he gave the bastile a critical inspection this morning.

In making the rounds of the cells he discovered that one of the iron bars facing the north corridor had been sawed in two, and close examination showed that the work had been done within the last few hours.

Of course none of the prisoners volunteered to throw the least light on the subject. On the contrary, they expressed great surprise, and expressed the belief that the cut was an old one, when a glance was all that was necessary to show that it had been done only recently.

Sheriff Porter has a desperate lot of prisoners in charge at present, and he realizes it to the fullest, for which reason he has been kept busy watching their every movement, as he thought, since the recent delivery, but he now realizes that he was in error.

If the sheriff confines the desperadoes in their cells day and night, refusing them the liberty of the cell

that needs the attention of the county.

Running Away from Home.

A lady living on Wilkerson street called the attention of the police this morning to the fact that a strange boy had taken up his abode at her home, and she was unable to get rid of him. The youngster had told a tale of woe that for pathetic details could not be excelled by the champion liar of the state. Officer John Scally visited the house and found the boy to be Sammy Foreman whose mother lives at Nineteenth and Harrison. He will be remembered as the little boy who sold pop

corridors, the chances are there will be no further attempts to escape.

A Very Bad Boy.

It is probable that Johnny Downs, a sixteen-year-old boy, will be sent to the reform school at Boonville, in a few days. His widowed mother stated this morning that the boy was incorrigible, and that whenever she attempted to correct him, he would assault and swear at her in a most shocking manner. She is a frail little woman and wholly unable to manage him. He pilfers all the money he can find in the house and associates with the lowest characters in the city. He refuses to work and his mother is taxed to support him. It is a case

corn on the streets at night last winter, even until 1 and 2 o'clock in the morning. The boy claims to be ill-treated at home, and is anxious to get away. An effort will be made to send him to the reform school.

Want the Line Extended.

Six petitions were put in circulation to-day for signatures, asking Judge Metsker to extend his Ohio street electric railway line north to Saline street, east on Saline past the woolen mills to Engineer, north on Engineer to the cemetery, and east from the cemetery on Walnut street to Emmett street, in Heard's addition, Northeast Sedalia.

It is believed that if built the line will be one of the best paying in Sedalia, and Judge Metsker will most likely construct it if the council does not pass an ordinance requiring him to pay excessive tax on each pole placed in position for the operation of the road.

THE DEMOCRAT,
Sedalia, Mo.

OFFICE: 307 Ohio St. Telephone 232.

Official Paper of the City of Sedalia.

THE race question seems to need some "settlement" in Illinois as well as "down south."

THE sad accident at Washington emphasizes the duty of the most rigid inspection of all public buildings.

CHICAGO is talking of keeping the World's fair open another year. But if they keep it open four months longer they will probably be tired of the job.

If the prisoners in the county jail don't quit sawing bars and punching holes in the old thing it will fall down on them some night, and bury a lot of them in the ruins.

PARTIES who claim to know what they are talking about say it is a dead sure thing that the north and south railroad is to be built. The line is to extend from the gulf to Duluth.

THERE it is again! Another bar sawed in two in the jail. When put in jail every prisoner should be made to give bond not to break out. It is the only way to keep them in the old rattle trap.

THERE is still a lot of work to do before Sedalia sidewalks are good enough for Sedalia. The law is said to be all that could be desired in the power it gives the city to make needed improvements.

THE Hannibal Journal says Jefferson City "will kick dust in Sedalia's eyes" by building a bridge across the river. Correct. When Jefferson City bridges the river the old Missouri's bed will be dry and dusty.

WHEN the financial flurry is over, and from present appearances the worst is passed, many "statesmen" will wonder why they were foolish enough to utter the nonsense that has been attributed to them in so many interviews.

WHEAT is now exported to Europe in large quantities and the gold tide is turning in favor of this country. Should this state of affairs continue for a few weeks many of our eminent financiers will have to revise their arguments against the free coinage of silver.

THE advertising columns of the DEMOCRAT show that Sedalia merchants have determined to make business and that they know how to do it. Just watch the liberal advertisers and see if they do not manage to secure the bulk of the trade. It will be a valuable object lesson to the business man who has never learned the power of printer's ink in attracting trade.

WHEN a tramp or trespasser has been arrested on suspicion and given a stay of execution to leave the city he should be given a fair chance to comply with the order of the court before he is again arrested on the charge of vagrancy by county officials. The DEMOCRAT does not believe in the wholesale criticism of officers, but there has been considerable complaint of late which, if well founded, calls for reform.

THE Globe-Democrat, the leading republican authority in this state, says that "the present trouble in financial situation is due to over which Cleveland has no and which have no practical to the fact that he is d of Harrison." It according to Mis-

souri republican testimony, Gov. McKinley is altogether wrong in railing at the federal administration because of hard times.

COL. R. M. WHITE, corresponding secretary of the Missouri Press Association, has made arrangements for an excursion train from Clinton to Chicago in order that the editors may attend the World's fair. The train of Wagner sleepers will leave Clinton on the 24th. While in Chicago the editors will be tendered a banquet in the Missouri building at the World's fair.

INSPECT THE BUILDING.

As will be seen elsewhere in this issue, the question is raised as to the safety of the Broadway school building.

Many citizens, who are in a position to give their words weight, seriously doubt the safety of the building.

The DEMOCRAT understands there was an inspection of the building two years ago, but if there is the slightest doubt as to its safety, another and a most rigid inspection should be made.

Now is the time to determine beyond the shadow of doubt the real condition of the building and to make any repairs that may be needed to render it perfectly and absolutely safe.

To think of the possibility of the floors or walls of the building giving way while six hundred or more children are in the various rooms is horrible.

The safety of a school building is a matter about which there must be no doubt.

It must be settled affirmatively before the building is used another day.

Let the inspection be made at once, and let it be so thorough that all parents will feel safe in sending their children to the school.

The DEMOCRAT believes the school board will take no chances in this matter, but will at once take such steps as are needed to protect the school children from danger.

It is encouraging to those business men who have confidence in the future, and who have stood up against the Wall street calamity howlers, to see the substantial increase in the earnings of railroads as compared with the earnings during May of last year. In speaking of this increase the Republic says: "The average monthly increase in railroad earnings for the whole country during the first four months of this year was less than 4 per cent, and it was hardly to be expected that the May increase would be more than 5 per cent, but reports from 134 roads, representing 100,000 miles of railroad, show that it will be nearly if not quite double that. As regards the receipts of individual lines, the St. Louis roads are up near the top as usual. The Missouri Pacific gained \$175,000, and to this should be added \$51,000 for the International and Great Northern, which is a part of the Missouri Pacific system. The Atchison, Topeka and Santa Fe gained with the help of the Frisco and the Chicago, Peoria and St. Louis roads, \$285,000, and the Illinois Central's St. Louis connections enabled that road to increase its May earnings \$258,000 and give it fifth place in the list of 134 roads reported. The New York Central heads the list with \$358,000, but its percentage of increase was less than that of the Missouri Pacific, which is sixth in the list. The Washab follows the Missouri Pacific with \$155,000, and then comes the Missouri, Kansas and Texas with \$150,000. The Big Four, Cotton Belt and Louisville and Nashville roads are above the \$50,000 mark, and the Louisville, Evansville and St. Louis only a little below it. The Mobile and Ohio, Cairo Short Line, Ohio and Mississippi, and in fact every St. Louis road as yet heard from, did a much larger business last month than in May, 1892, with one single exception."

THE late financial flurry, while it has carried ruin and bankruptcy to many localities, has demonstrated, as no other event could have done, the solidity of the financial and business institutions of grand old Missouri. This state has fortunately escaped the "boom" epidemic, and properties have not been rated

at fictitious values. Real estate in Missouri is good for the money loaned on it in spite of any shrinkage in values that could possibly occur. Business is not overdone in Missouri as it is in many localities where the growth has been of the phenomenal character. Investors will see and note that the financial storm which caused so many wrecks in other sections swept over Missouri without seriously affecting business or impairing the credit or standing of our Missouri banks. They will argue from this that Missouri is a safe place in which to invest their capital, and all kinds of Missouri securities will be greater favorites than ever in the money markets.

THE dispatches from Chicago announce the failure of the "Harvey World's Fair Hotel" and the "Harvey Home Improvement company." The hotel was built by subscriptions from prominent temperance people and the ostensible object of the company was to run a temperance hotel and temperance community. That needed digestion (in woodpecker reason)

Much more than be eating deadwood out of season.

He cocked his ear sideways, just mark with what pleasure!

For the sucker was there of fullest worm measure;

And "peck, peck, a'pecking," he whacked with a will

For the jolly fat worm his gizzard to fill.

HOW CAN YOU RELISH FROZEN SEWERAGE?

Dr. L. Bremer, of St. Louis, Mo., in an article published in the April number of the Bacteriological World, at Battle Creek, Mich., says:

"Whoever has seen with what utter disregard to the simplest hygienic precautions that natural ice is gathered, must be astonished, if he be familiar with the mental teachings of bacteriology, that epidemic diseases are not more frequent. I am sure that to the tumbler and the ice box are traceable many a case of typhoid and diphtheria. The ice box especially offers the greatest opportunities for food contamination." RIDICULOUS LAWS OF A NEW
ENGLAND STATE.

ANOTHER COMMON SCOLD BEFORE
THE MAGISTRATE.

It Is Not Likely, However, That She
Will Be Convicted—How Common
Scolds Were Punished in Ye Olden
Time.

WHEN THE LAW makers of Rhode Island and other States of the East made laws against common scolds they did not dream how ludicrous the whole proceeding would look to the people of the most glorious epoch of the nineteenth century. The old law still remains on the statute books of at least one of the States, as witness the case in Rhode Island. A woman is on trial charged with being a public scold and a nuisance, and if convicted she will be bridled up like a horse and driven through the principal streets of the village. Of course she would sooner go to prison for from one to ten years, but her wishes will not be consulted. So if convicted she will be compelled to take the more severe and humiliating form of punishment. It is quite likely, though, that she will not be convicted. Though guilty as charged, she will probably be discharged, that the people of the State may be saved from public shame. Such though would not have been the case in our grandmother's days.

Nowadays, of course, it is not to be supposed that married people quarrel. The refinement of the age is against it, and when a man is scolded by his wife there is naught for him to do but to grin and bear it. But in former days it was not so.

When a woman, one of our grandmothers, perhaps, was so liberal in the use of her tongue as to render herself conspicuous in the neighborhood where she lived, all her husband, if she had a husband, or her afflicted neighbors, if she were a widow or spinster, did was to proceed to the nearest Magistrate and make charges against her as a "common scold."

A day was appointed for the trial, evidence was produced, and if the conclusion, the Magistrate directed that she should be bridled and escorted through the town.

The scold's bridle was always kept in the Town Hall or in the church, and was an instrument well adapted to tame the spirit of even the most able and successful shrew. It consisted of an iron band passing over the head from ear to ear, from the extremities of which another band from one to two inches wide passed across the face between the nose and chin.

In front a plate, projecting inward from the face band, entered the mouth and pressed down the tongue of the

sufferer, thus effectually preventing any outcry. From the extremities of the face band another thin iron semicircle passed around the head at the back, secured on one side by a hinge, on the other by a hasp and staple. The back band was thrown open by means of the hinge, the bridle placed upon the head of the shrewish unfortunate; the hinged section was then closed and fastened with a padlock, of which the Magistrate bore the key.

The scold was then tied by the wrists to the tail of a cart and escorted through the streets preceded by a crier announcing her name, offense and punishment, and followed by a mob of idlers such as can always be collected to witness a scene of this kind. One does of such medicine. It might be supposed, would overcome the temper of any shrew, but in case it proved inadequate there was another remedy still more severe, which was rarely known to fail.

After the scold's bridle had proved its inefficiency to suppress the clamor of the scold and she was brought up again before a magistrate, recourse was had, as a last resort, to the ducking-stool.

The ducking-stool was a large chair without legs, which was fastened to the end of a long pole, balanced at the top of a post close by the waters of a stream or pond. The pole was arranged upon a pivot so loosely fastened that it permitted of a considerable vertical as well as horizontal motion.

The scold was securely strapped in the chair, a half dozen pairs of strong hands, generally those of the witnesses in the case, seized the other end of the pole and revolved the unfortunate scold until she went directly over the stream or pond. The pole was then revolved a number of times to kill the ardor and impetuosity of her tongue.

Generally she was ducked until she gave promise of permanent reformation, and made oath upon the Bible or psalm-book, brought from the nearest church for that purpose, that she would scold no more. But instances have been known of inveterate shrews refusing to promise anything of the kind, and in one case in the South of England 102 years ago an unlucky woman was ducked twenty-seven times before she was subdued, while a year or two before that another unfortunate was actually drowned, the determination of those inflicting the punishment to subdue her being equalled by her resolution not to yield.

There should be no dampness in your hen-house. A good plan is to clean it out every two or three days, putting in nice dry straw for them to scratch their feet out of.

THE CYCLE TOURNAMENT.

The Best Ever Given in the State—
Smoker and Singing.

The local wheelmen are putting forth every energy to make the cycle tournament here on the 4th of July the most successful one ever held in the state. They propose to make the "smoker," on the night of the 3rd, and the banquet, the night of the 4th, elegant affairs. The races on the afternoon of the 4th will have many attractive features, and very valuable prizes offered. There will be a race of one-half mile for boys under 12 years of age, also a fancy and trick riding contest, at which many wonderful feats will be performed on the wheel. The other events will consist of ten races and will be extremely exciting, as some of the fastest men in the United States have entered the contest.

At the smoker will be refreshments, athletic exhibitions of various kinds, vocal and instrumental music, speeches, etc. One of the leading attractions of this entertainment will be two choruses of twenty male voices of the city as follows:

First tenors—G. C. Hoffman, F. C. Billings, H. V. Leist, F. W. Phipps, A. W. Leake.

Second tenors—G. W. Menefee, F. Strallard, R. Johnson, R. H. Gray, L. T. West.

First Basses—E. E. Clark, jr., W. H. Hogg, G. G. Floyd, W. M. Johns, G. Edmonson.

Second Basses—J. F. Kennedy, W. H. Reynolds, G. H. Wright, G. Woods, W. J. Wilson.

Conductor, Chas. L. Taylor; accompanist, Til Stark.

I have made arrangements to run a garbage wagon and will clean alleys, yards, streets and vaults. Leave order with W. J. Letts, East Sedalia, or Sanitary Officer Doty.

CATON'S Nerve Tonic and Vitalizer.

QUICKLY CURES
General & Nervous Debility,
Spinal Exhaustion,
Neurasthenia, etc.

Completely, Perfectly and Permanently
Restoring the Vital Energies; Increasing
Nervous Power, Renewing the Ambition of
Youth and the

COURAGE OF MANHOOD;
Restoring to Enfeebled, Exhausted, Ex-
hausted, Depleted or Overworked Men and
Women

Perfect Constitutional Powers.

Its extraordinary curative power manifests itself almost immediately. It is taken. On this point the evidence of those who have taken it is uniform and positive. They say they can feel the effect of every dose doing them good. It is a powerful nerve invigorating tonic, imparting its restorative influence through the medium of the nervous system to every organ and tissue in the body. It makes but little difference whether the constitutional vigor has been undermined by acute disease, overwork, or certain mischievous indiscretions; or whether the broken down condition is caused by one name or other, so long as there is nervous exhaustion, general or local weakness—so long as enervation and debility are the type of the ailment, this is the remedy.

THOSE WHO SUFFER

from the results of over-mental or physical exertion, hardship, exposure, hidden drains, caprice, or who have brought upon themselves a series of afflictions by ignorance or willfully violating nature's laws, will find *Caton's Vitalizer and Nerve Tonic* the remedy for their certain relief. It speedily removes all evidences of progressive physical deterioration, and restores the enfeebled energies to their natural vigor.

WHENEVER THERE IS

any weakness of the vital organs, nervousness, prostration of the physical or mental energies, confusion of ideas, lack of self-control, irritability of temper, melancholy, cowardice, weakness of the knees and back, palpitation of the heart, dragging pain in the head, headache, irritation of the kidneys and bladder, milky urine, pernicious and hidden wastes, resulting in a failure of the mental and physical powers, constituting an imminent to success and unlifting him or her for the duties and responsibilities of life, it is the remedy par excellence.

A single package will be sufficient to inaugurate the work of regeneration, and cure in many cases. But stubborn cases often require more. It will be sent, postpaid, secured from observation, for \$1.00 per package, or 6 packages for \$5.00. Address all orders to CATON MED. CO., Boston, Mass.

Wood's Opera House

Tuesday, June 20, '93.

The pupils of the Sedalia School of Music will present the opera of

"Good Luck and Bad Luck,"

—Under the direction of—
MISS LIZZIE LEE WARREN.

This beautiful opera was written especially for children's voices by the famous composer, Reinecke. The three principal parts will be taken by Miss Etta Miles and Masters Carl Barnett and Tommie Grimshaw, with a large chorus.

Admission, parquet and dress circle, 35 cents. Balcony 25 cents.

THE RAILROADS.

Walter Shirk, the "Katy's" hustling commercial agent, was at Clinton yesterday.

Ed Adams, the engineer, who removed his family to Lexington some time ago, will return to Sedalia next week.

Claude Guion and his better half were in the city last evening, en route to St. Louis from "Darkest Egypt," sometimes called Parsons.

The Great Northern railway has announced a \$25 rate from St. Paul to Seattle, and a general slash in rates is now looked for.

Purchasing Agent Stevens, of the Missouri, Kansas & Texas, has removed his department from Parsons to St. Louis, and he is now located in the Wainwright building.

General Freight Agent Groseclose, of the Cotton Belt in Texas, will resign on the 1st of July to accept service elsewhere. His successor has not yet been announced.

The Missouri State Board of Railway and Warehouse Commissioners will visit St. Paul this week to observe the operation of the new grain-weighing and inspection law in Minnesota.

J. L. West, who for the past eight months has been the efficient Chief Clerk for J. W. Allen, general freight claim agent of the M., K. & T., has been appointed commercial agent for that road at Denison, Texas, the appointment to take effect June 18th.

A Conductor Caught.

For some time past the Chicago Great Western officials have been quietly investigating reports about certain conductors carrying passengers from St. Paul to Chicago on their line for certain compensation and making no returns to the company for it. This terminated yesterday in the swearing out of a warrant for the arrest of Frank Mortimer, a conductor running between Dubuque and Minneapolis, and an order to dismiss certain other conductors. It is stated that the officials have other information which they do not wish to divulge at the present.

The M., K. & T. Inspection.

A party of Missouri, Kansas and Texas officials, consisting of Vice President Parry, Traffic Manager Miller, General Freight Agent J. W. Allen and Superintendent J. W. Maxwell, arrived in Houston, Tex., yesterday on a special train. The party are on a tour of inspection of the Missouri, Kansas and Texas lines and left St. Louis in the early part of last week. Vice President Purdy said they found the road all the way from Hannibal in good condition and had enjoyed a pleasant trip. Mr. Purdy said the new part of the road from Houston to Lagrange was being put in excellent condition, and that it was the purpose of the company to improve the service as rapidly as possible. Mr. Miller, in spite of his previous denial of the Barker rumor, was forced to admit that Mr. Barker had been engaged as general passenger and ticket agent.

It will pay you to try S. K. Headache Tablets.

BUT SAY!!

Did you see the crowd? Did you partake of the Bargain Feast? It goes without saying that you attended the great J. B. Murphy

BANKRUPT SALE.

From the manner in which customers were sandwiched in our mammoth place of business, one would suppose that every man, woman and child in Sedalia attended the sale.

BEAR IN MIND

That this stock was bought from Lawyer W. A. Fast, at 40 cents on the dollar, that at the price it was the best bargain ever granted in Pettis county, and farther, that we are giving our trade the benefit of our purchase

EACH DAY THIS WEEK.

We place on our counters (bringing from reserve stock) a NEW list of bargains.

Come down and see the new layout; you will be interested; you will buy.

SEDALIA SHOULD HAVE IT.**The Odd Fellows' and Orphans' Home to be Located—A Big Institution.**

Mr. F. E. Hoffman is at work at present upon a project which, if successful, will be a great thing for Sedalia. At the last grand lodge meeting of the Odd Fellows in St. Louis in May, he, with a number of others, was appointed as trustee for the proposed Odd Fellows' and Orphans' home.

The home will provide a place for disabled and superannuated members of the order and for the orphans of deceased members. It is to be located during the present year, and as soon as certain committees make their report.

Mr. Hoffman sees no reason why Sedalia should not get the home and will put forth his best efforts with that end in view. The citizens should lend every possible encouragement to secure it. The home will be supported by the I. O. O. F. and as a charitable institution will be an ornament to the city.

The trustees who have the matter in hand are E. R. Shipley, Springfield; T. P. Rixey, Jonesburg, Mo.; C. F. Vogel, St. Louis; M. Goldman, W. H. Woodward, St. Louis; R. M. Abercrombie, St. Joseph; Mrs. L. U. DeBolt, St. Joseph; Mrs. A. Poundstone, Neosha, and F. E. Hoffman, Sedalia.

For Sale.

Two good work horses cheap at D. Blocher's.

Extremes of Temperature.

"There is no place in the state where temperature is so at variance as at the union depot," said a railroad man to-day. In winter, that baggage room is one of the warmest places in the city; on the platform, not ten feet away, fully exposed to the winds of the west, I feel warranted in the assertion that Iceland is not in comparison. Strange to say, however, in summer the order is reversed, the baggage room becoming cool and the depot platform hotter than blue blazes."

For Rent.

Locusts Have Appeared.

A sound not heard before for several years is that of the locust which has made its appearance. According to the legendary lore of the negro, its cry of "Pharaoh! Pharaoh!" goes back to the day of Israel's bondage in Egypt and keeps sounding the name of the cruel and oppressive king. It is to be hoped that the appearance of locusts does not mean a scourge of them this year.

The Mighty Cash Produces Great Results!

THERE IS A TIME WHEN WE EXPECT

A legitimate profit on our merchandise but there are times when we don't stop at profit or cost and the

TIME IS RIGHT NOW

For us to unload. We are after every spare dollar. We are giving you more merchandise for a dollar now than you can obtain at any other time.

DO TAKE ADVANTAGE.

We're not and never will mislead the public by false fabrications in bringing you to our store in vain; we boldly and loudly demand your presence to obtain the greatest bargains in ready wear apparel ever offered you in the history of our career.

WHY DO WE PUSH MERCHANDISE?

This we easily explain. 1st. The rainy and late spring has left us a surplus of merchandise. We have to crowd 3 months' business into 30 days. How can it be done? Only by special inducements and great efforts on our part. We are not slow in realizing. We must take medicine when we send for a doctor, and let's tell you we are prepared to take our medicine now. We are ready with a house full of bargains. So come and be relieved of your ready cash.

Our 2d reason for making a cold drive to realize money is the great financial question of to-day. We realize that if we let you have a good bargain that the overstocked manufacturer will not refuse our ready cash and give us good results.

GREAT SUIT SALE IS STILL ON. \$30, \$28, \$22, \$20, your choice still go at

\$15 Cash Only.

More and more. Bargains until we unload our gigantic stock. **STARTS TO-MORROW.** A Suit Sale. Any and all our \$18, \$17, \$16, \$15 for \$10.
